# YOUR RISK ASSESSMENT & SUSCEPTIBILITY PROFILE

Patient Name \_\_\_\_\_

Date \_\_\_\_\_

	Low	Moderate	High
<b>GUM &amp; BONE (Periodontal)</b>			
<b>TOOTH STRUCTURE (Biomechanical)</b>			
<b>JOINT (TMJ), BITE AND CHEWING (Functional)</b>			
<b>SMILE CHARACTERISTICS (Dentofacial)</b>			

We would like to thank you for choosing our practice to provide your dental care. We are interested in providing a long-term strategy for *dental health*. We will strive to restore your mouth to proper form, function, comfort, esthetics and health. This risk assessment & susceptibility profile will allow you to identify and understand the 4 categories that are evaluated. An individualized custom-tailored health plan will always be proposed based on managing your risk & susceptibility. Rest assured, we are committed to taking great care of you. To help you understand, below you will find a description of the 4 categories evaluated.

## WHAT DO THESE DOTS MEAN?

They represent your risk & susceptibility in each of the 4 categories. This risk is based on evidence-based research and Dr. Mirelez's clinical experience. Our objective is to minimize risk (shift towards the "green dot") and improve your dental health.

 = you are at low risk

 = you are at moderate risk

 = you are at high risk

## GUM & BONE (Periodontal)

This category evaluates the risk & susceptibility involved with your gum and bone (periodontal) health. Bone and gum is the foundation of our teeth that helps to support them. If you have a history or are currently experiencing gum and bone loss around your teeth, you are at risk for losing more since periodontal disease is episodic and infrequent. Periodontal disease is affected by genetic factors (eg, inherited), environmental factors (eg, smoking, hygiene), and acquired factors (eg, stress, systemic disease) and has been shown to be associated to diabetes, adverse pregnancy outcomes, and cardiovascular disease. Your risk is based on: history and/ or current bone loss, severity of bone loss, bleeding gums, swollen gums, loose teeth, receding gums, and/or missing teeth due to bone loss.

## TOOTH STRUCTURE (Biomechanical)

This category evaluates the risk & susceptibility involved with your teeth structure. Teeth need to be healthy to be strong. If you have a history of cavities (caries, decay) or cracks, teeth are at risk for more problems. So, your risk is based on: history and/or current cavities, defective fillings/crowns, structurally compromised (large fillings) teeth, history of root canal treatment, erosion, and/or missing teeth due to tooth structure failure.

## JOINT (TMJ), BITE AND CHEWING (Functional)

This category evaluates the risk & susceptibility involved with your joint, bite and chewing mechanism. Wear on teeth that doesn't correlate with age is a risk for future joint, bite and chewing problems. The joint is evaluated for noises and sounds, which may correlate to possible TMJ disorders. Your risk is based on: history and/or current TMJ disorder, pain/ difficulty with chewing, wear on teeth, an uneven bite, wedged out cavitations on side of teeth, loose teeth, and/or missing teeth that worsen the chewing mechanism.

## SMILE CHARACTERISTICS (Dentofacial)

This category is based on your perception as our guide. It is also based on your current smile characteristics if alteration were going to be made. If teeth or gums are not in the correct position then changing your smile involves risk. Your risk is based on: your perception as a guide, tooth and gum position, tooth and gum length, lip position, teeth alignment and arrangement, and tooth color changes.

## Three Levels of Dental Care

To our patients: Our primary goal is to develop a lifelong relationship with you and your family which enables us to provide high quality dental care in a personalized and comfortable manner. It is our goal to respect your wishes and help you become as healthy as you would like to be. Please review the levels of dental care we provide below and select the one that best describes the level of care that meets your current needs. Even though finances may be a concern, don't let it influence your decision. We know that things in life change, so you are welcome to change your level of care at any time in the future.

☐ **Level 1 - Immediate/Limited Care**

Patients who select this level of care desire treatment only when “something breaks” and becomes uncomfortable and/or painful. Generally, patients at this level prefer limited care and can expect “short-term” solutions. They usually want to correct immediate problems with as little effort as possible. Patients at this level are not yet ready for thorough or preventative treatment.

☐ **Level 2 - Maintenance Care**

Patients who select this level of care want to take an active part in the prevention of present and future disease problems, but choose repair solutions that are “medium-term”. Patients in this level know full well that the dental treatment performed today may need to be repeated again in 2-5 years.

☐ **Level 3 - Optimum Complete Care**

Patients who select this level of care want to take a significant role in lowering their risk for dental problems and prefer all necessary treatment to be completed in order to minimize the amount and cost of dentistry needed in their lifetime. Optimum care patients want a comprehensive examination and a master plan to provide ultimate long-term health and wellness. Patients in this level want to achieve optimal oral health by proactive and preventative means.

## Financial Policy

To maintain operations and prevent potential misunderstandings, we ask you to accept and adhere to the following financial policy for dental treatment for yourself or any family member:

### PATIENTS WITH DENTAL INSURANCE:

We understand that dental insurance plays a role in helping defray some of the costs of dental care. However, we would like to share with you the following facts about dental insurance.

Dental insurance often will not pay for everything. It is meant only to assist in paying for your dental care. Dental insurance plans have no correlation to actual patients' needs. As such, many routine and necessary dental services are not covered, even though you may need those services. Our responsibility is to provide you with the best care and treatment to meet your needs, not to match your care to insurance plan limitations. Many plans pay much less than you might expect. The benefits your plan pays for are largely determined by how much your employer or you pay in premiums for the plan. We are happy to submit your claims and help you to receive the maximum benefits due to you, but please understand that **we do not accept responsibility for collecting an insurance claim, or negotiate disputed claims. You remain responsible for payment for unpaid services.**

### OPTIONAL PAYMENT TERMS:

- **Discount for Cash (no insurance):** We also provide a **5%** discount for restorative dental services when paid with cash or check, **\*orthodontic and cosmetic treatment excluded\***
- **In-Office Complete Dental Plan:** The complete dental plan (VIP) includes two complimentary cleanings, all exams and x-rays within the plan year, and you will receive a **20%** discount for restorative dental services. (Please note that discount will differ if financing is utilized) **\*orthodontic and cosmetic treatment excluded**
- **Term Loan:** By arrangement with *Care Credit* and *Sunbit*, we offer our patients an interest-free term loan with no down payment, no annual fee, and no prepayment penalty (subject to approval). You can complete the provided "Payment Plan Credit Application" or you can visit [www.CareCredit.com](http://www.CareCredit.com) or [www.sunbit.com](http://www.sunbit.com) to see which plan works best for you. You can find additional information at [www.Mirelezdental.com](http://www.Mirelezdental.com).

### APPOINTMENT FEE:

For each appointment, a specific amount of time and material is reserved especially for you. We strongly encourage our patients to keep their appointments. If you must change your appointment, we require a **48 business hour notice. Appoint fees depend on appointment type:**

- **Hygiene appointments: \$100 per hour.**
- **Dr. Appointments: \$200 per hour.**
- **Sedation appointments: \$1000.00. (Sedation appointments REQUIRE 5 day advance notice.)**

**CONFIRMATION POLICY:** We routinely confirm appointments via phone and or text. If we are unable to reach you, we may remove your appointment from the schedule and ask you to reschedule

### COLLECTION POLICY:

Payments are expected at the time services are rendered. We accept cash, checks, debit cards, and all major credit cards. You will be responsible for a \$75.00 bookkeeping fee if your account is assigned to a third party for collection. Should suit be commenced to enforce any of the terms of this agreement, you shall pay all attorney's fees and costs. The Court of jurisdiction shall be Fresno County. You hereby grant the right to verify employment or run a credit report to assess your ability to fulfill your financial obligation to this agreement. If communication by phone is necessary, you grant permission to the office, or our assigns, to contact you by phone. If you are unavailable, and a recording device is operable, a message may be left providing a name and phone number.
